About Us

At Odee Technology, we believe technology should make life happier, better, and more convenient. We are a forward-thinking digital solutions company dedicated to helping **small and medium-sized businesses** unlock their full potential in the modern marketplace.

Founded with the vision of bridging the gap between traditional business operations and the limitless opportunities of the digital world, Odee Technology provides reliable, user-friendly tools and solutions designed to simplify everyday business operations.

We specialize in ;

- **Website Design & Development**
- **Mobile and Desktop Applications**
- **Payment Integration**
- **Management Systems**

info@odeetech.com

What We do

We’ve met real estate agents with prime listings no one ever finds. We’ve seen brilliant entrepreneurs with quality goods and services whose shops thrive offline but remain invisible online. We know the frustration of watching opportunities slip away because the world doesn’t know you exist.

At Odee Technology, we change that. We help your businesses get seen, get trusted, and get chosen. Our team designs and delivers professional websites, custom software, mobile apps, payment integrations, and SaaS solutions that make your business visible, accessible, and competitive in today’s digital world.
Whether you’re a small start-up, a growing SME, or an established enterprise, **we give you the tools to reach more customers, run smoother operations, and grow faster**, **all while making your business life happier, better, and more convenient.**
With Odee Technology, you’re building an online presence, opening the door to new opportunities, bigger markets, and long-term success.

2

Mobile App Development

We create powerful, user-friendly mobile applications that engage your audience and drive business growth.

3

Business Management System

This is an all-in-one software platform that helps your company manage, track, and optimize its daily operations from a single dashboard. It combines essential business functions into one streamlined solution.

4

Payment Intergration

Our payment integration solutions help your businesses streamline transactions, reduce costs, and improve customer experience

Project Portfolio

1 Website Development

Primecost Website/2023

Website: https://www.prime-costqs.com/

Prime Cost Ltd is a registered Quantity Surveying and Project Management consultancy firm with over 20 years of experience helping clients deliver projects on time, within budget, and to the highest standards. When designing their website, we created clear and informative service pages that speak directly to client concerns, highlighted their expertise to build trust, and ensured seamless, responsive navigation for effortless access on any device. We anchored credibility by showcasing real contact details, office location, and professional insights, then added simple inquiry pathways that make reaching out feel personal and supported.

we didn't just build a website; we crafted a digital handshake that reassures, guides, and connects every visitor to the professionalism behind the brand.

ODEE

2 Website Development

Gaming Regulators in Africa Website/2025

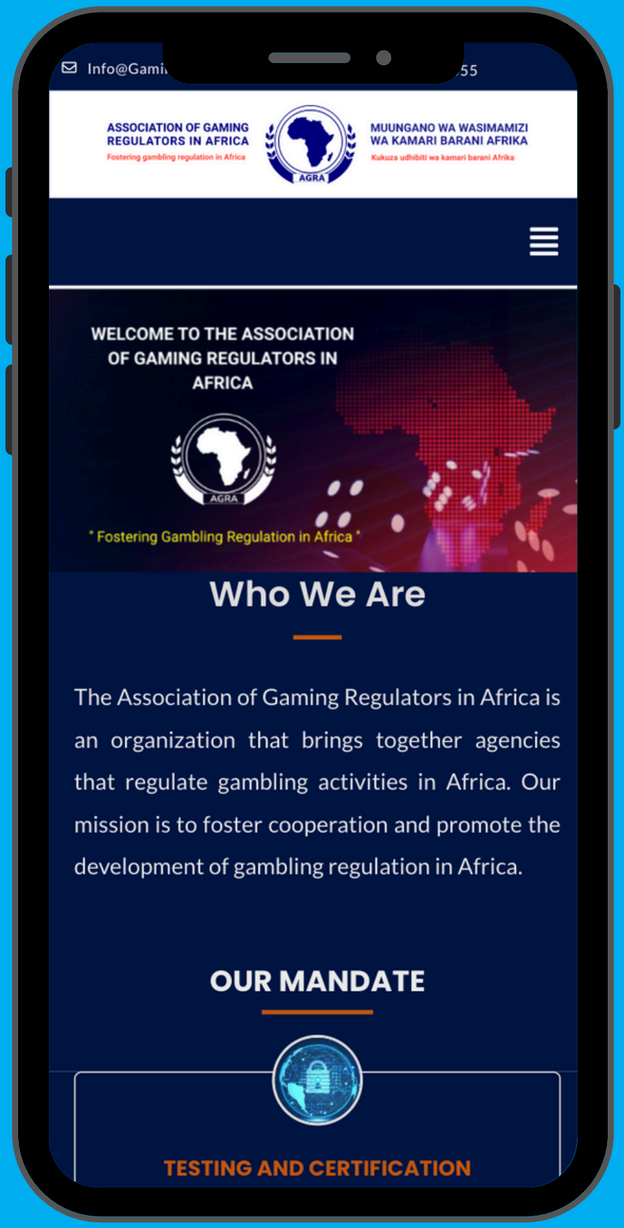
Website: www.gamingregulators.africa

Client: Association of Gaming Regulators in Africa (AGRA)

We developed a responsive, secure, and content-driven website that reflects AGRA's continental mandate. We implemented a clean interface, dynamic content sections, and easy content management to keep information up to date.

Services Provided;

- Website Development
- CMS Integration
- Content Updates & Maintenance
- Performance & Security Optimization
- SEO & Accessibility Enhancements



3 Ticketing System With Payment Integration

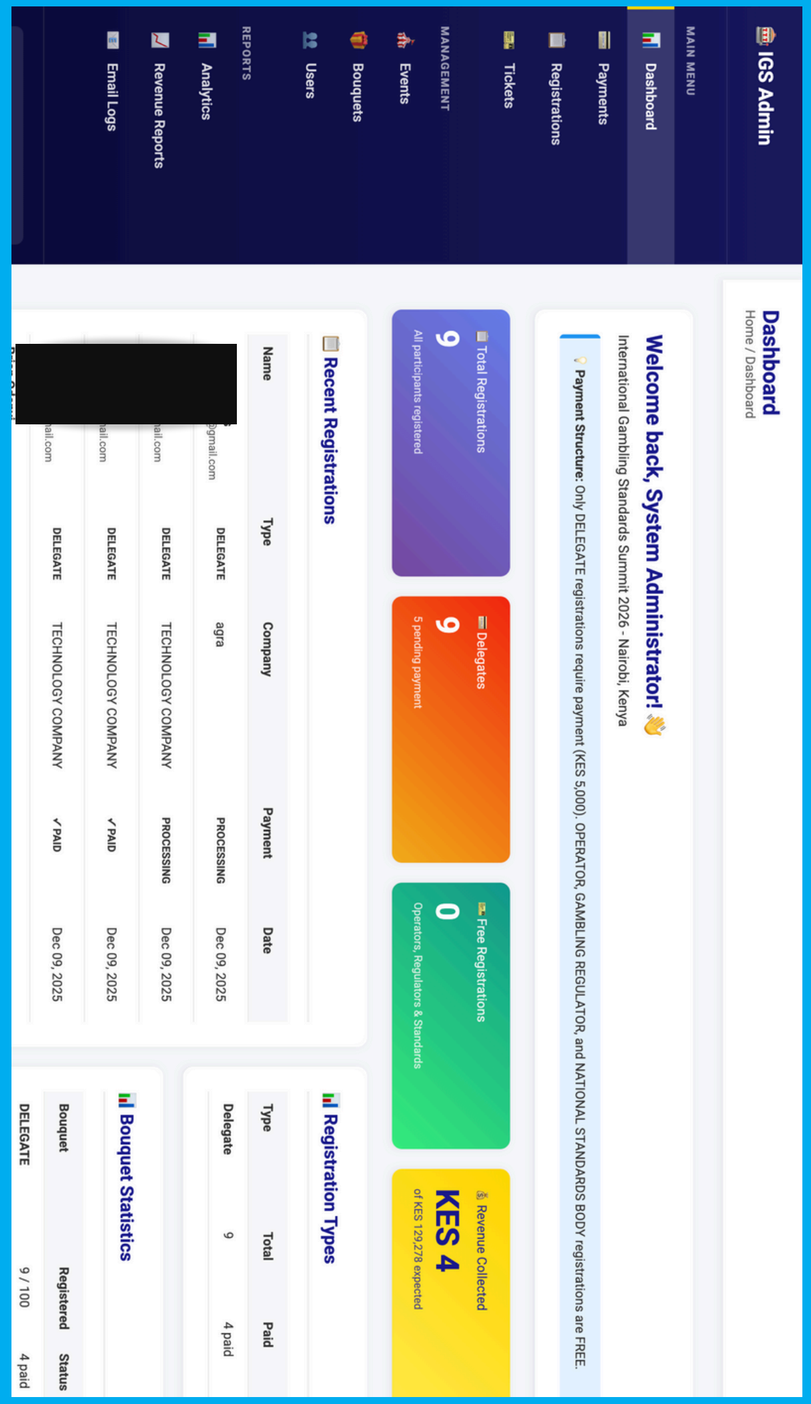
International Gambling Standards Summit 2026 Website/2025

Website: www.gamingstandards.com

We developed a ticketing and registration system for the Gambling Standards Summit 2026, enabling delegates, national standards bodies, and betting regulators to purchase tickets and book attendance online.

The platform integrates Paystack, supporting M-Pesa and card payments, and includes an admin dashboard that provides real-time insights into

- registered attendees,
- tickets sold,
- revenue received, and
- user management

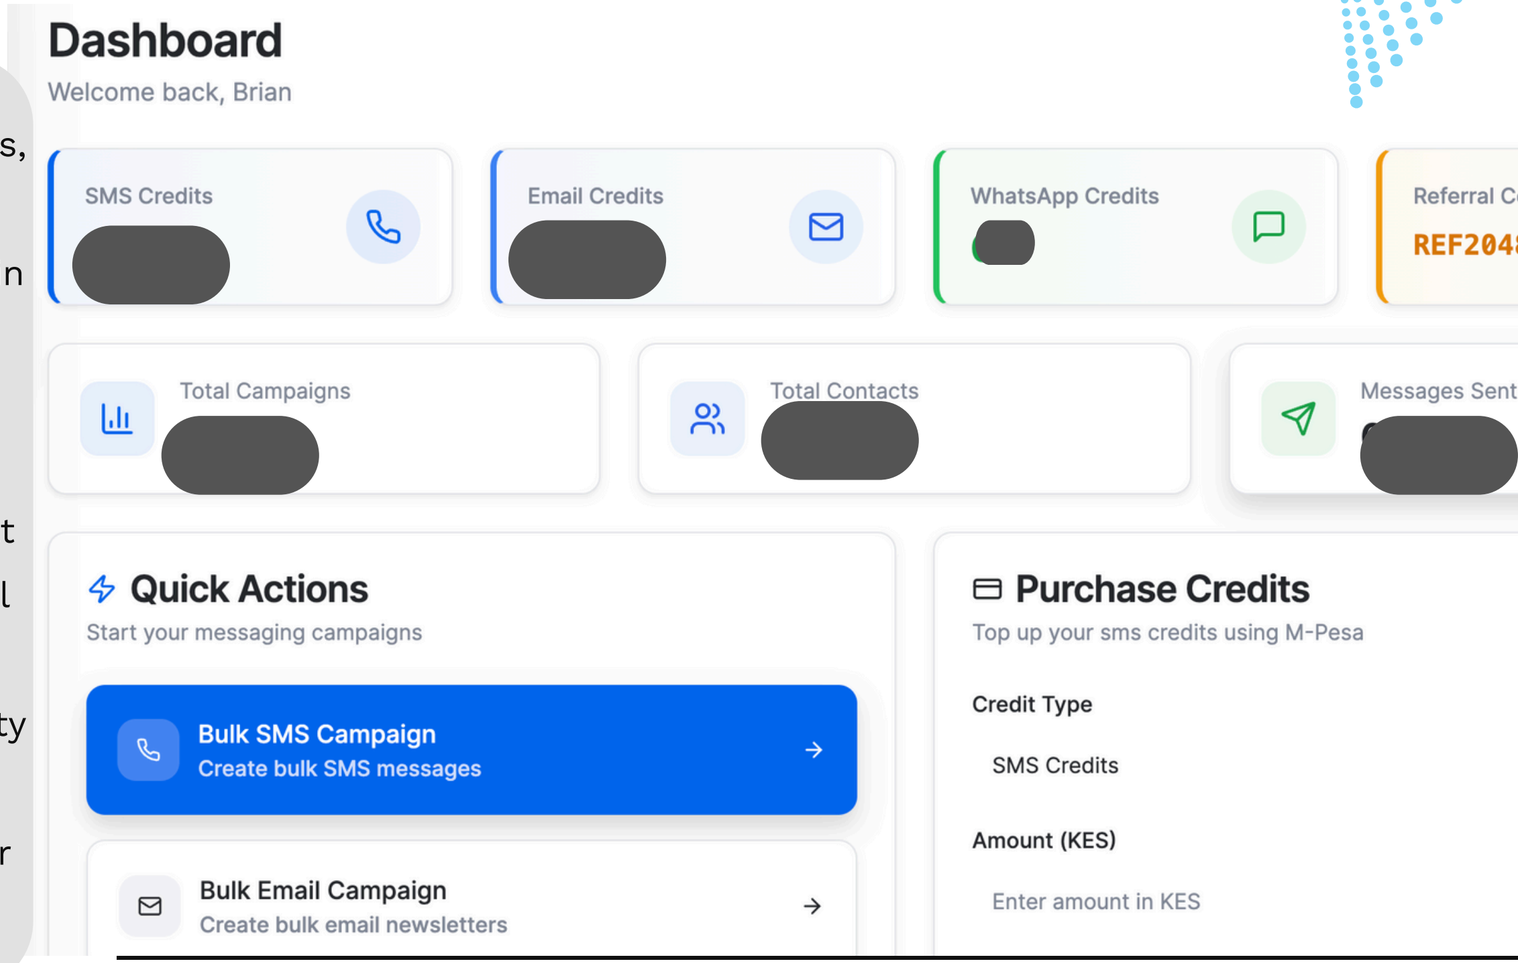


info@odeetech.com

4 Business Management System

Bulk SMS management System Client:Greysilicon

Greysilicon is the best Kenyan telecom solutions provider, specializing in bulk SMS, USSD, shortcodes, and digital communication services for businesses and organizations across the region. We partnered in developing their system, which features a high-performance SMS engine capable of delivering messages directly to mobile network operators, ensuring fast, reliable, and cost-effective delivery at scale. The platform supports bulk and transactional messaging, real-time delivery reports, and flexible sender ID management. It is built for high availability and scalability, making it suitable for enterprise communications, alerts, notifications, and customer engagement across multiple channels.

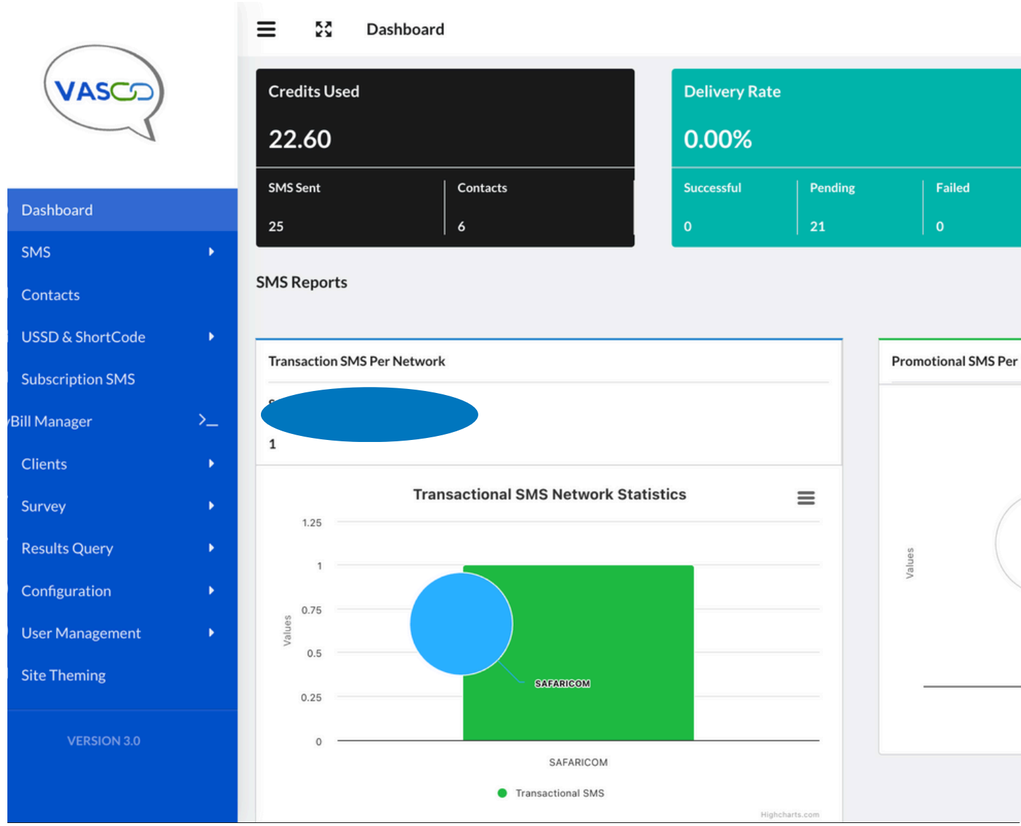


info@odeetech.com

5 Business Management System

CPaaS (Communications Platform as a Service) System
Client:VasLink Communications

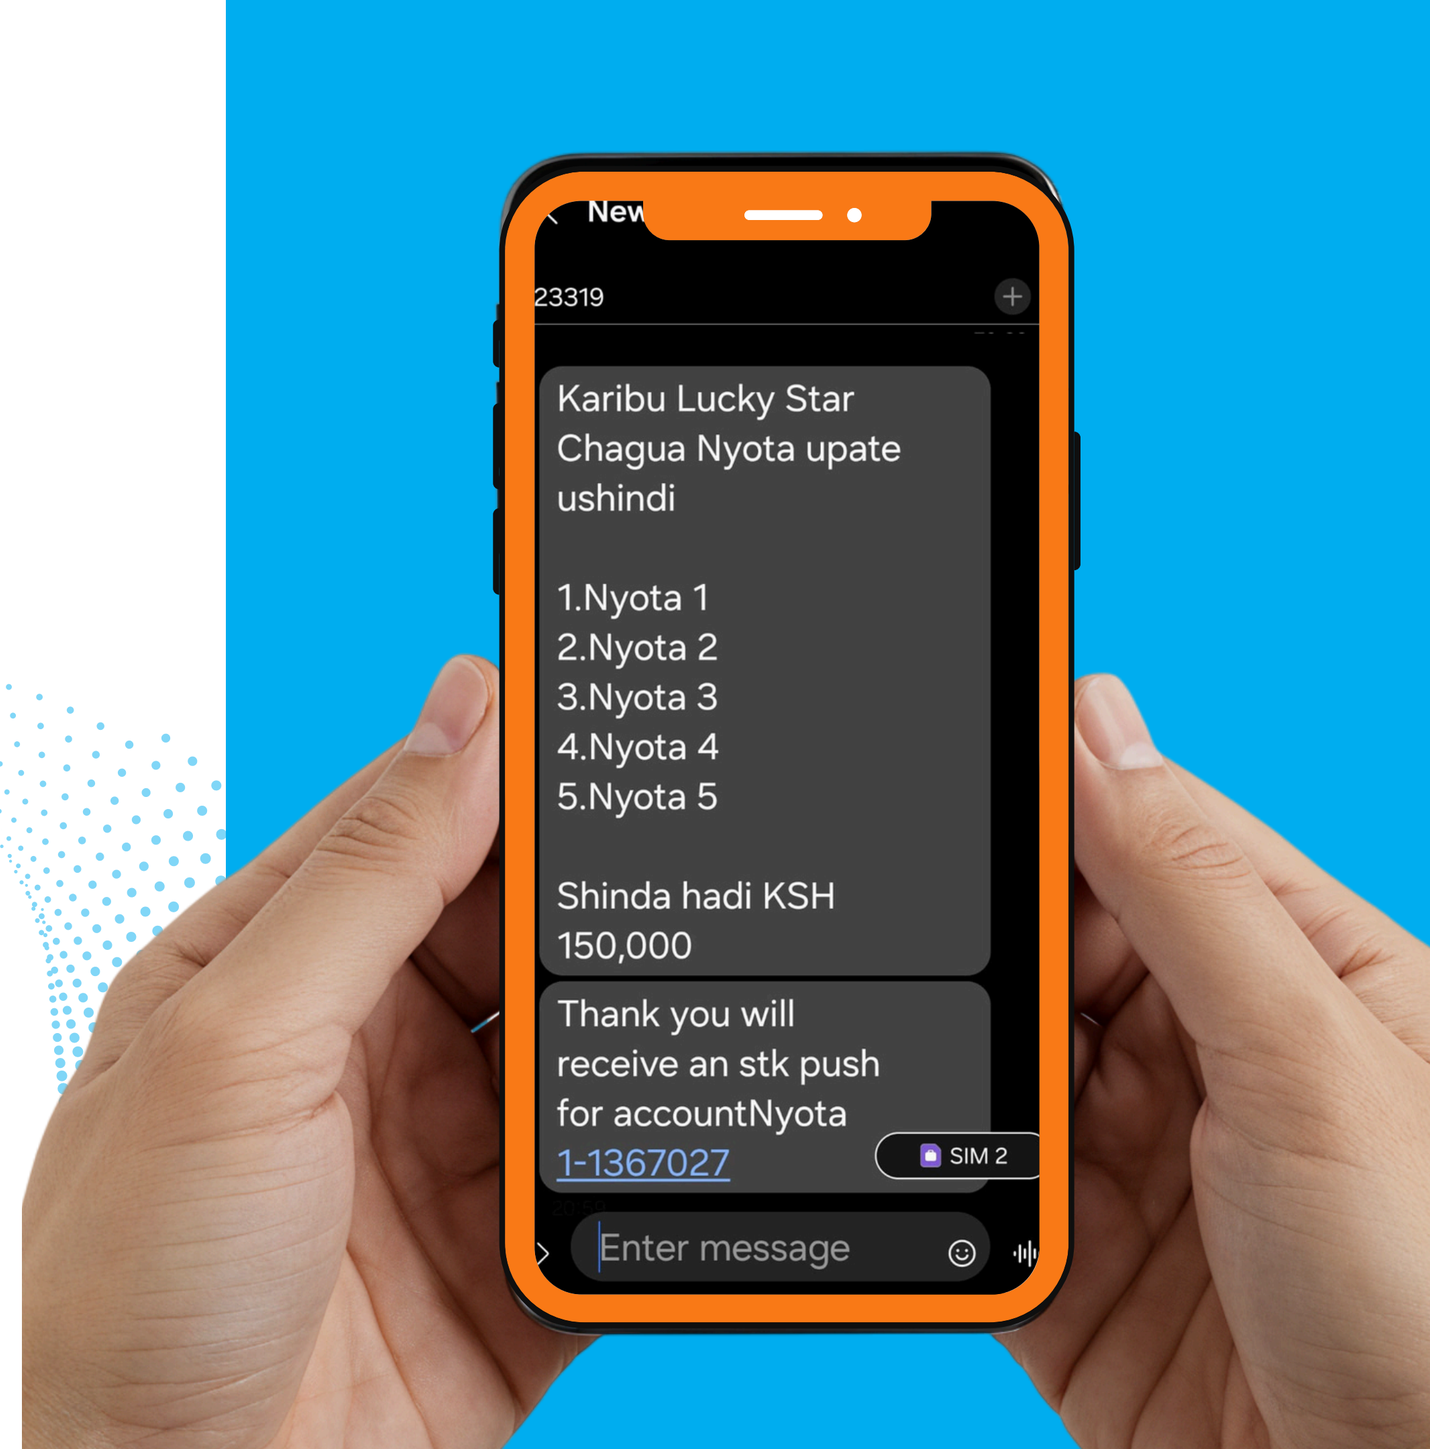
Vaslink Communications is a leading Kenyan telecom solutions provider specializing in bulk SMS, USSD, shortcodes, and digital communication services for businesses and organizations across the region. We developed a unified Bulk SMS & Aggregator System that allows clients to log in securely, send high-volume messages, run targeted campaigns, and access real-time delivery analytics through a clean, responsive interface. The platform integrates seamlessly with Safaricom, Airtel, and Telkom, leveraging an optimized routing engine to deliver thousands of messages within seconds, while an affiliate analytics dashboard empowers partners with transparent performance insights. Designed to be fast, intuitive, and extremely reliable, this solution helps Vaslink's customers communicate at scale, boost engagement, and reach audiences locally and abroad with ease.



ODEE

6 Short Code Betting System/2025

We built a secure, USSD-based betting system that lets customers place bets anytime without internet access. It integrates with mobile money platforms for instant deposits and withdrawals, delivers real-time odds and results, and includes an admin dashboard for managing games, payouts, and users. Designed for speed, scalability, and convenience, it helps betting companies reach more customers while ensuring a smooth experience.



ODEE

7 Sms Voting System/2025

Kalengin Music Festival Awards

We developed a secure, SMS-based voting system that enabled the Kalenjin community to vote for their favourite celebrities across multiple categories using their mobile phones. Voting was conducted entirely via SMS, with each vote billed to the voter, making the process simple, accessible, and commercially sustainable.

The system featured a centralized admin dashboard that provided real-time visibility into votes cast, displayed all candidates arranged chronologically by category, and allowed administrators to add, manage, and update candidates seamlessly. Designed for reliability, scalability, and convenience, the platform ensured accurate vote tallying, transparent results tracking, and a smooth experience for both voters and event organizers.

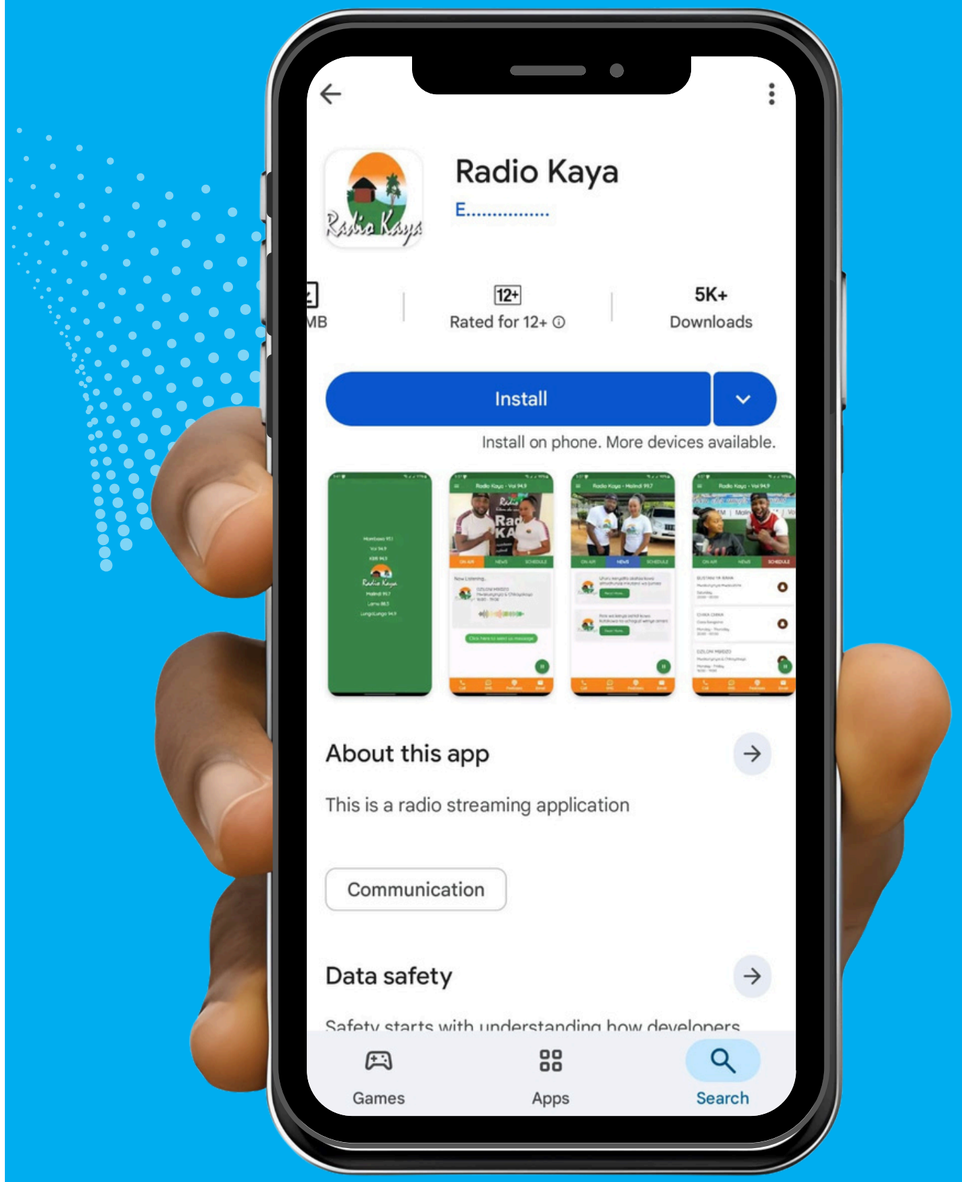
8 Mobile App Design and Development

Radio Kaya Mobile App /2022

:https://play.google.com/store/apps/details?id=com.livestream.myapplication.RadioStream

Client:Elspacio Ltd

Radio Kaya is a vibrant radio platform rooted along the Coast of Kenya, with its strongest and most loyal listenership across Kwale, Mombasa, Kilifi, and surrounding coastal communities. In developing their mobile app, we crafted a seamless digital experience that allows listeners to stream live radio, access recorded shows and podcasts, follow presenter schedules, receive instant push-notification updates, and connect through integrated social channels. Designed to feel familiar, fast, and responsive on any device, the app extends the coastal sound far beyond home, making it possible for fans in the diaspora, including large audiences in Qatar and Saudi Arabia, to stay connected to culture, language, and community. More than an app, we built a digital bridge that brings a piece of the Coast closer to everyone, no matter where they are in the world.



9 Mobile App Design and Development

Radio Khendo Mobile App /2022

https://play.google.com/store/apps/details?id=com.streaming.khendo

Client: Elspacio Ltd

Khendo FM is a vibrant coastal radio station rooted deeply in culture, music, and community, and we developed a modern mobile application that carries that heartbeat beyond traditional borders to listeners across the world. Built with smooth, reliable streaming, real-time program updates, push notifications, and in-app SMS interaction, the app makes every listener feel closer to home, no matter how far they've traveled. An integrated analytics dashboard now gives the station meaningful insight into where its voices are being heard, revealing the silent map of loyal hearts tuning in from places like Kuwait and the United Arab Emirates (UAE). With clean navigation, dependable uptime, and powerful streaming infrastructure, this digital platform preserves identity, reconnects families to familiar voices, and strengthens the emotional bond between Khendo FM and its diaspora community.

Testimonials

Gregory Kipchumba

Greysilicon limited

★★★★★

Their team combines technical expertise with a proactive approach, ensuring our systems are secure, scalable, and reliable. We value their professionalism, commitment, and forward-thinking solutions, and we highly recommend Odee Technologimited as a trusted IT partner.

Weldon Koros

Gambling Regulators Africa

★★★★★

What stood out most was their clarity and communication. No hidden charges, no vague promises, just solid delivery, on time and exactly as agreed. They even guided us through post-launch analytics so we could see the performance in real numbers.

Rhoda Ogesi

Wintercool Contractor

★★★★★

I confidently recommend Odee Technology Limited to any business that wants to grow online without stress. Their blend of professionalism, technical excellence, and genuine care for clients is unmatched.
